

WHO ARE WE?

PBM OHS Management was established in 2017 and positioned our business as a reliable partner of choice in supporting our clients to create and manage a safe, healthy, and legally compliant workplace. We believe that all employees should return home safely to their families after each shift.

Our directors have over two decades experience in petrochemical material manufacturing and mining. Having worked in these sectors, they have developed a passion for maintaining health and safety practices within the workplace.
